'DG letter to speed up recruitment process'

ICMR Clarifies Role Of Letter In Trial Process

ANI

New Delhi: After medical experts cautioned against rushing a Covid-19 vaccine, the ICMR on Saturday defended its move to fast-track clinical trials for a planned launch by August 15, saying the process was exactly in accordance with globally accepted norms.

The premier medical research body said the letter by its Director General Dr Balram Bhargava to principal investigators of the clinical trial sites was meant to cut unnecessary red tape, without bypassing any necessary process, and speed up recruitment of participants.

"Trials will be done following the best practices and rigour," the Indian Council for Medical Research(ICMR) said in statement, seeking to address concerns voiced by several experts who said the timeline set by the research body may not be realistic.

"ICMR's process is exactly in accordance with the globally accepted norms to fast-track the vaccine development for diseases of pandemic potential wherein human and animal trials can continue in parallel."

The statement further said that in the larger public health interest, it is important for the ICMR to expedite the clinical trials with a promising indigenous vaccine, adding it is committed to treat the safety and interest of people of India as a topmost priority.

Bhargava had on July 2 written to principal investigators of select medical institutions and hospitals to fast-track human clinical trial approvals for the vaccine candidate 'Covaxin' being developed in collaboration with Bharat Biotech International Ltd.

The clarification from the government's apex medical research body comes in the wake of concerns among the medical and scientific community for ICMR setting August 15 as a target for developing vaccine

Faced with the unprecedented nature of the Covid-19 pandemic, and the consequent dislocation of the normal life, all other vaccine candidates across the globe have been similarly fast-tracked, the ICMR statement said.

The Drugs Controller General of India has accorded permission to conduct phase 1 and 2 (human) clinical trial of 'Covaxin' based on in-depth scrutiny of the available data from pre-clinical studies, it added.

Just as red tape was not allowed to become a hindrance in the fast track approval of new indigenous testing kits or for introducing in the Indian market potential Covid-19 related drugs, the indigenous vaccine development process has also been sought to be insulated from slow file movement, it said.

"The aim is to complete these phases at the earliest, so that population-based trials for efficacy could be initiated without delay."

After intense characterization and review of all data from BBIL, ICMR said it is supporting the clinical development as the vaccine candidate appears to be promising.

Underlining that ICMR was among the world's mostreputed organisations in the field of medical research and its track record of facilitating India's globally respected and acknowledged vaccine and drug industry speaks for itself, the research body said trials will be reviewed, as required, by a Data Safety Monitoring Board (DSMB). The ICMR has identified 12 clinical trial sites, including medical institutions and hospitals, and has asked their principal investigators to ensure that the subject enrolment is initiated no later than July 7. Ranchi/Gumla: Cut off from the mainstream and with minimal healthcare infrastructure, the tribal-dominated Simdega district has beaten all odds and emerged as a model for administrative and healthcare officials in the 23 other districts of Jharkhand.

Battered by severe Covid-19 outbreak in the first half of June, Simdega, with a population of about 7.5 lakh, had become the worst-affected district in Jharkhand after several returning migrants tested positive for the virus.

Until May 29, the district had recorded just 27 positive cases, but on June8, the district recorded 59 positive — all but two were migrants — in the biggest one-day spike reported by any district in Jharkhand till date. By June 29, Simdega became the worst affected district with 348 positive cases, of which 119 were active and one patient had died. The future seemed dire for this Maoist-dominated area, 126km from Ranchi. But over the next couple of weeks, officials here pulled off a miracle of sorts — the recovery rate soared and the number of new cases reduced to a trickle as the number of returning migrants fell. On Saturday afternoon, Simdega had a total caseload of 353, but only four are active and the number of fatalities still remains one. With a recovery rate of almost 99%, mortality rate of 0.3% and just two new infections detected in the last week, Simdega is now on the path to become Covid-free, an understaffed government hospital (22 doctors available against a sanctioned strength of 40) and not a single ventilator.

NOTICE FOR E-RFP/E-TENDER

Reference No.: FPM/------/2020, Lucknow Dated:------06.2020

Department of Horticulture and Food Processing
2-Sapru Marg, Udyan Bhawan, Lucknow-226001

Flight schedule to and from KoI reduced to 40

▶Continued from P 1

They can travel via Raipur, Bhubaneswar or Vishakhapatnam, although that would make travel even more expensive than it is now.

With six cities struck off the list, the already curtailed flight schedule to and from Kolkata has been pruned further from 65 to 40. Arrival of international repatriation flights has already been suspended following the stategovernment's request, leading to the cancellation of five flights that were scheduled between the UK. The civil aviation ministry may have acquiesced to these requests, but officials hope to persuade the state government into dropping the other demand of curtailing flights from other cities by limiting each airline's operations to once a week. Kharola on Friday urged Sinha to reconsider the request. Airlines, too, are hoping there is no further curtailment. Airline officials, however, say it will be a logistical nightmare if their operations were to be limited to once a week.

Over 5 lakh stranded Indians back

TIMES NEWS NETWORK

New Delhi: The government on Friday said a record 5 lakh stranded Indians had returned safely to India under the Vande Bharat Mission (VBM). The VBM operations commenced on May 7 and in less than two months, 5,03,990 stranded Indians from 137 countries, including from remote areas, have returned to their homes, it said in a statement.

Kerala received the largest number of stranded Indians (94,085), followed by Uttar Pradesh, Bihar, Tamil Nadu, West Bengal, Maharashtra, Karnataka, Gujarat and Andhra Pradesh. The largest number of stranded Indians are said to have returned from UAE (57,305), followed by Kuwait, Qatar, Oman, Saudi Arabia and USA. From Nepal, 91,193 have returned through land border check-posts. "Considering that the initial target to bring stranded Indians with compelling reasons was only 2 lakh, this is a significant achievement," said the statement. To achieve this goal, the government, VBM involved 869 Air India flights, 1,256 charter flights and eight naval ships. "The stranded Indians returned by Air India were 1,64,121; Indian Navy 3,987 in 8 ships from Maldives, Iran and Colombo; chartered flights - 2,39,832 and foreign carriers - 23,969; about 60 air ambulances and 95,229 through land border check-posts from neighbouring countries," it said.

"MEA-designated senior officers as state coordinators were in the forefront of these operations ensuring smooth coordination at all levels," said an official.
