Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Kotak Mahindra Investments Limited (hereinafter referred to as "the Holding Company") and its associate companies, which are companies incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding company and its associate companies, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide

reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, read with other matter paragraph 9 and 10 stated below, the Holding Company and one of its associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one associate company, which are companies incorporated in India, is based on the corresponding reports of the auditor of such company incorporated in India. Our opinion is not modified in respect of this matter.
10. As stated in paragraph 10 of our main audit report, the report on the internal financial controls over financial reporting, insofar as it relates to an associate entity, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial information are not material to the Holding Company.

Industry Developments & Outlook

The major lending activities of the Company are focused on Capital Markets, Real Estate Sector and Corporates including structured financing.

Capital Markets:

FY 2017-18 continued with the positive streak of FY 2016-17 in so far as equity capital markets are concerned. Markets shrugged off the concerns led by demonetization and GST implementation and achieved record highs. Your Company's capital market business took advantage of the buoyant market conditions. As we enter into FY2019, some of the economic fundamentals holding the market in good stead, are turning for the worse. Elevated levels of crude oil put a risk to both current account position as well as fiscal situation; bond market's concerns surrounding the same are reflected in the sharp increase in G-Sec yields over the last year. While the equity markets remain strong supported by robust inflows in domestic mutual funds, volatility is expected to be higher given the concerns surrounding macro-

economic conditions coupled with a heavy election calendar. Your Company remains cautious for the coming year for its Capital Markets business.

Real Estate:

There has been a sustained focus on maintaining and improving the overall health of the portfolio. Your Company deepened business with financially sound borrowers with strong managements and excellent track records of delivery. At the core of the lending strategy lay abundant asset cover and visibility of cash flows (60% of the total exposure to real estate is backed by ongoing projects and Lease Rent Discounting). This resulted in a robust business portfolio with wider and deeper coverage, albeit at slightly lower spreads. Despite turbulence prevalent in marketplace, overall health of the portfolio has shown improvement and gross non-performing assets of your Company has come down to zero. Year on Year growth of customer advances in the segment has remained at modest 7%.

The financial year 2017-18 continued to see challenges in the real estate sector. The industry seemed to have recovered from the impact of demonetization in last fiscal. It had to come to terms with rollout of the Real Estate (Regulation & Development) Act, 2016 (RERA). This year the state governments have started rollout of RERA in the respective states with a view to bring transparency and efficiency in the system. While these are early days, but RERA seems to have brought about more transparency and accountability in the industry.

Implementation & rollout of the GST in India has also resulted in some structural changes in the end-buyer behavior. Commercial offtake has seen sustained momentum this year as well. Institutional capital flow into long term stable assets across office and retail has been a healthy respite for the sector. Government's focus on housing for all and low cost housing has come as a great opportunity for the sector with stakeholders aligning themselves to the vision.

Your Company is well poised to benefit from this phase of consolidation, and well-positioned to capitalize on the upturn in the sector when it kicks in, while ensuring negligible reversals.

Structured Finance:

Your Company, over the past few years, has entrenched its position as a preferred platform for providing structured finance solutions to its clients, customized and tailor-made to suit their requirements. With the various concerns plaguing the banking industry, NBFCs in general have witnessed heightened activity levels, especially in the area of corporate & structured finance. The sector agnostic approach adopted by your Company has ensured a wide coverage arena; deal flow remained robust during FY2018. However, your Company has been extremely selective in committing resources to transactions which ensure adequate risk-adjusted returns. The coming year promises to have higher activity levels in this segment of your Company's business, we remain prepared to make best of the opportunities that the marketplace will offer.

Opportunities & Threats

There will be opportunities for the Company to grow both in market share as well as book size in the lending business.

Increasing economic activity will offer more opportunity for financing in the structured space including growth capital. Promoter financing for consolidation etc.

Key challenges going forward are (i) Margin pressure due to softening of interest rates (ii) Stiff competition from existing and new players (iii) Pressures on maintaining credit quality (iv) Global macroeconomic challenges bringing uncertainties to Indian economy.

Fundamentally our country has been showing good resilience against uncertainties and volatilities. Domestic macro-economic factors seem to be favorable. Key to sustainable growth of your Company would be right credit decisions with focus on risk adjusted returns for which it is well positioned.
