The final dividend is subject to the approval of the shareholders at the forthcoming Annual General Meeting.

3. STATE OF THE COMPANY'S AFFAIRS

Kotak Mahindra Capital Company Limited (KMCC)

KMCC is a leading, full-service investment bank in India offering integrated solutions encompassing high-quality financial advisory services and financing solutions. The services include Equity Capital Market issuances, M&A Advisory and Private Equity Advisory.

Equity Capital Markets

In FY 22, the Indian Equity Capital Markets continued to witness strong momentum in fundraising completing 53 IPOs, 1 FPO, 29 QIPs, 22 OFS and 10 Rights Issues. A total of ₹ 2,03,327 crore (vs ₹ 2,70,139 crore in FY 21) was raised across Initial Public Offerings (IPOs), Qualified Institutional Placements (QIPs), Further Public Offering (FPO), Rights Issues and Offers for Sale (OFS). FY22 saw exceptional response in IPOs and ensured successful completion of some of the marquee IPOs in the New Age Tech sector such as Zomato, FSN E-commerce (Nykaa), PB Fintech and Sona BLW Precision Forgings among others. Other sectors such as Consumer, Financials, Healthcare, Real estate and Speciality Chemicals also witnessed strong investor response. Domestic Institutional Investors continued to support the markets with an inflow of US$ 29Bn vs an outflow of US$ 17Bn from FIIs.

KMCC successfully completed 36 transactions, including 19 IPOs, 4 QIPs, 9 Block Deals, 2 Rights Issues, 1 OFS and 1 InVIT raising a total of ₹ 1,16,556 crore in FY 2022. Kotak continued to be the Left Lead Banker of Choice having led large IPO transactions like Zomato, Star Health, FSN E-Commerce Ventures Ltd, PB Fintech, Sona BLW Precision Forgings etc.

KMCC was ranked No. 1 in IPOs more than ₹ 1,500 crore having led 16 out of 20 such IPOs. KMCC had a 55% market share in FY22 across all ECM transactions. (Source: Prime Database)

Top Equity Deals that were concluded by KMCC during the year include:

IPO: Zomato - ₹ 9,375 crore, Star Health & Allied Insurance - ₹ 6,019 crore, PB Fintech - ₹ 5,710 crore, Sona BLW Precision Forgings - ₹ 5,500 crore, FSN E-Commerce Ventures Ltd - ₹ 5,350 crore, Adani Wilmar - ₹ 3,600 crore, Vedant Fashions - ₹ 3,149 crore, CarTrade Tech - ₹ 2,999 crore, Aptus Value Housing Finance - ₹ 2,780 crore, Aditya Birla Sun Life AMC - ₹ 2,768 crore, Macrotech Developers - ₹ 2,500 crore, Krishna Institute of Medical Sciences - ₹ 2,144 crore, Vijaya Diagnostic Center - ₹ 1,894 crore, Devyani International - ₹ 1,838 crore, Clean Science & Technology - ₹ 1,547 crore, Glenmark Lifesciences - ₹ 1,514 crore, Rategain Travel Technologies - ₹ 1,336 crore, C.E. Info Systems - ₹ 1,040 crore, GR Infraprojects - ₹ 962 crore.

Rights: Bharti Airtel Ltd - ₹ 20,987 crore, Indian Hotels Co. Ltd - ₹ 1,982 crore.

OFS: ONGC - ₹ 3,017 crore.

InVIT: NHAI InVIT - ₹ 5,046 crore.

QIP: Macrotech Developers LTD. - ₹ 4,000 crore, Aarti Industries - ₹ 1,200 crore, Route Mobile - ₹ 868 crore, Brigade Enterprises - ₹ 500 crore.

Blocks: Kotak Mahindra Bank - ₹ 6,790 crore, Max Healthcare - ₹ 3,290 crore, Max Healthcare - ₹ 2,221 crore, Cipla - ₹ 1,820 crore, SBI Life Insurance - ₹ 597 crore, Cipla - ₹ 520 crore, Tech Mahindra - ₹ 510 crore, Indian Energy Exchange - ₹ 488 crore, Vijaya Diagnostic Center - ₹ 439 crore.

Mergers & Acquisitions and Private Equity Advisory

The total M&A Advisory deal value in India for FY22 increased to USD 151 billion vis-à-vis USD 126 billion in FY21, while deal volumes increased to 3,700 in FY22 from 2,084 in FY21. (Source: Bloomberg, as on April 13, 2022)

In FY22, amongst the investment banks, KMCC was ranked #4 by volume of deals and #2 by value of deals in the M&A league tables (Source: Bloomberg, as on April 13, 2022). KMCC advised on a diverse array of 17 M&A transactions across a range of products and sectors, for a total deal value of USD 9.6 billion (not considering deals where values have not been disclosed):

- Across products, ranging from Acquisitions, Divestments, Mergers, Private Equity investments, Demerger, Open Offers, Buyback Offers;
- Across sectors, ranging from Digital, Consumer, Technology, Industrials, Financial Services, Healthcare, Infrastructure etc.

Deal values in FY22 shown growth of ~20% vis-à-vis the previous year despite disruptions like COVID-19 pandemic and geo-political conflicts. In FY22, financial sponsors accounted for around 41% of the transactions by value vis-à-vis 33% in FY21 and constituted significant part of India's M&A activity.

The deal activity during FY22 was largely contributed by inbound minority investments in the Digital and financial services sectors. Consolidation by market leaders, divestment of non-core assets and acquisitions by new age technology companies were major drivers for M&A transactions in FY22 and the trend is expected to continue in FY23. Other factors such as investment by global strategic players, exits by private equity funds, restructuring and simplification of corporate structures are also expected to drive the M&A activity in FY23.

Some of the key advisory deals that were announced by KMCC during the financial year include:

- Sell-side advisor to the Founders of the Billdesk (IndiaIdeas.com Ltd.) for acquisition of Billdesk by PayU (payments and fintech business of Prosus N.V.)
- Buy-side advisor to Tata Digital for acquisition of Supermarket Grocery Supplies (BigBasket)
- Buy-side advisor to API Holdings and advisor to the open offer for acquisition of controlling stake in Thyrocare Technologies
- Financial advisor for preferential allotment in IRB Infrastructure Developers
- Financial advisor and fairness opinion provider to Tata Consumer Products Limited for reorganization with Tata Coffee Limited.
- Sell-side advisor to Fortum for divestment of 500 MW solar PV assets and greenfield partnership for future assets
- Buy-side advisor & manager to the open offer to Crompton Greaves Consumer Electricals for acquisition of controlling stake in Butterfly Gandhimathi Appliances
- Buy-side advisor to Delhivery for acquisition of SpotOn Logistics Pvt. Ltd
- Manager to the open offer by Pantone Finvest Ltd. (Tata group) for acquisition of controlling stake in Tejas Networks
- Sell-side advisor to Kogta Financial for Series D funding round and exit to to IIFL fund
- Buy-side advisor to Tata Digital for acquisition of 1MG Technologies
- Sell-side advisor to Encube Ethicals and Multiples PE for investment by Quadria Capital in Encube Ethicals
- Sell-side advisor to iD Fresh Food & Helion Venture Partners for investment by NewQuest Capital Partners in iD Fresh Food
- Fairness opinion to Brookfield India REIT for acquisition of grade A office asset in Noida
- Manager to the Buyback offer to the shareholders of Infosys through open market route
- Manager to the Buyback offer to the shareholders of The Great Eastern Shipping Company through open market route

COVID-19

While COVID -19 has forced employees to work from home there has been no disruption in the performance of official duties with employees and clients having adjusted to the new way of working. Your Company's performance has not been materially adversely impacted by COVID-19. However, in case the virus and its variants further spreads through a third or subsequent waves it may have an adverse impact Company's performance.

4. INTERNAL CONTROL & RISK MANAGEMENT

Management is responsible for establishing and maintaining adequate internal control over financial statements /reporting. Internal control over financial reporting is a process designed under the supervision of the Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with regulatory required applicable Accounting Principles.

Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets; provide reasonable assurances that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting standards and that receipts and expenditures are being made only in accordance with authorisations of management and the respective Directors; and provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of assets that could have a material effect on the financial statements. Internal control systems, no matter how well designed, have inherent limitations. During the year your company carried out a third party review of internal financial control of which the results did not bring out any material deficiencies.

The Directors and management of the company have responsibility for ensuring that management maintain an effective system of risk management and internal control and for reviewing its effectiveness. Your company is committed to operating within a strong system of internal control that enables business to be transacted and risk taken without exposing itself to unacceptable potential losses or reputational damage. Risk is managed on group basis as well on an entity basis. Your Company has a risk management policy along with a risk register that identifies and monitors critical risks which may threaten the existence of the Company.

Independent Auditor's Report

To The Members of KOTAK MAHINDRA CAPITAL COMPANY LIMITED

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying standalone financial statements of Kotak Mahindra Capital Company Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report including Annexures to Directors' Report, but does not include the standalone financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31st March, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

      In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of it's knowledge and belief, as disclosed in the notes to accounts (Refer Note 36 to the standalone financial statements), no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities.

(b) The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the notes to accounts (Refer Note 36 to the standalone financial statements), no funds (which are material either individually or in the aggregate) have been received by the Company from any persons or entities, including foreign entities.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with section 123 of the Act.

As stated in note 37 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date of Kotak Mahindra Capital Company Limited)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kotak Mahindra Capital Company Limited ("the Company") as of 31st March, 2022 in conjunction with our audit of the Ind AS standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date of Kotak Mahindra Capital Company Limited on the standalone financial statements of the Company for the year ended 31 March 2022)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Property, Plant and Equipment, were physically verified during the year by the Management which, in our opinion, provides for physical verification at reasonable intervals. No material discrepancies were noticed on such verification

(c) The Company does not have any immovable properties and hence reporting under clause (i)(c) of the Order is not applicable.

(d) The Company has not revalued any of its property, plant and equipment and intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at 31 March 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The Company does not have any inventory and hence reporting under clause (ii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and hence reporting under clause (ii)(b) of the Order is not applicable.

(iii) (a) The Company has made investments in equity instruments (Companies) and mutual funds (other parties) during the year. The Company has not provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year.

(b) The Investments made during the year, in our opinion, prima facie, not prejudicial to the Company’s interest.

(c) The Company has not provided any loans or advances in the nature of loans, and hence reporting under clause (iii)(c), (d), (e), and (f) of the Order is not applicable.

(iv) According to information and explanation given to us, the Company has not granted any loans to parties covered under section 185 of the Companies Act. In our opinion and according to the information and explanations given to us, the company has compiled with the provisions of Section 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities.

(v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.

(vi) Having regard to the nature of the Company’s business / activities, reporting under clause (vi) of the Order is not applicable.

(vii) In respect of statutory dues:

(a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Income-tax, cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities though there has been a delay in respect of remittance of Provident Fund and Income Tax. We have been informed that the provisions of the Employees’ State Insurance Act, Sales Tax, Service Tax, duty of Customs, duty of Excise and Value Added Tax are not applicable to the Company.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Income-tax, cess and other material statutory dues in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 3 1 March 2022 on account of disputes are given below:

Name of the Statute	Nature of the Dues	Amount (₹ in lakhs)	Period to Which the Amount Relates	Forum where Dispute is Pending
Income Tax Act, 1961	Tax	3.18	A.Y. 2011-12	Commissioner of Income Tax (Appeal)
Income Tax Act, 1961	Tax	81.07	A.Y. 2017-18	Commissioner of Income Tax (Appeal)
Income Tax Act, 1961	Tax	185.37	A.Y. 2018-19	Commissioner of Income Tax (Appeal)

(viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause (ix)(a) of the Order is not applicable to the Company.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.

(d) On an overall examination of the standalone financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) The Company has not raised any loans during the year and hence reporting on clause (ix)(f) of the Order is not applicable.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year and upto the date of this report.

(xii) The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the draft internal audit reports issued to the Company during the year and covering the period from April 2021 to December 2021 which issued after the balance sheet date for the period under audit.

(xv) In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.

The Group does not have any Core Investment Company (CIC) as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.

(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

1. CORPORATE INFORMATION

Kotak Mahindra Capital Company Limited (the Company) is a Category I Merchant banker registered with SEBI and incorporated on 27th July, 1995, with its registered office situated at 27BKC, 1st Floor, Plot No.C-27, "G" Block, Bandra - Kurla Complex, Bandra (East), Mumbai-400051, India.

It operates as a full – service Investment Bank.

2. BASIS OF PREPARATION

A. Statement of compliance

The financial statements of the company have been prepared in accordance with the Indian Accounting Standards (herein after referred as 'Ind AS') notified under Section 133 of the Companies Act, 2013 ("the Act") [Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016] and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the financial years presented in the financial statements. These standalone financial statements were authorized for issue by the Company's Board of Director's on 09th June 2022

B. Functional and presentation currency

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency. All values are rounded to the nearest lakhs with two decimals, except when otherwise indicated.

C. Basis of measurement

The financial statements have been prepared on a historical cost basis except for the following:

- Certain financial assets and liabilities - measured at fair value (refer accounting policy regarding financial instruments);
- Net defined benefit (asset) / liability: Net defined benefit liability is measured at present value of defined benefit obligation less fair value of planned assets;
- Share-based payments - measured at fair value.

D. Use of estimates and judgements

The preparation of financial statements in accordance with Ind AS requires use of judgements, estimates and assumptions for some items, which might have an effect on their recognition and measurement in the balance sheet and statement of profit and loss. The actual amounts realized may differ from these estimates. The estimates and the underlying assumptions are reviewed on an ongoing basis.

Judgement, estimates, and assumptions are required in particular for:

I. Recognition of revenue over time or at a point in time

The Company recognizes revenue from Issue management and placement services, underwriting commission and financial advisory services at a point in time because performance obligation is completed once the service is provided by the Company.

II. Determination of estimated useful lives of property, plant, equipment

Useful lives of property, plant and equipment are based on nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

III. Recognition and Measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial valuation. Key actuarial assumptions which form the basis of above valuation includes discount rate, trends in salary escalation, demographics and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Further details are disclosed in Note 22.

IV. Recognition of deferred tax assets

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and depreciation carry-forwards could be utilized.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

V. Recognition and measurement of provisions and contingencies

The recognition and measurement of provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may, therefore, vary from the amount included in other provisions.

VI. Discounting of long-term financial assets/liabilities

All financial assets/liabilities are required to be measured at fair value on initial recognition. In case of financial assets/liabilities which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

VII. Fair value of share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option or appreciation right, volatility and dividend yield and making assumptions about them. The Company initially measures the cost of cash-settled transactions with employees using a Black-Scholes model. Key assumptions made includes expected volatility of share price, expected dividends and discount rate, under this option pricing model. For cash-settled share-based payment transactions, the liability needs to be remeasured at the end of each reporting period up to the date of settlement, with any changes in fair value recognised in the statement of profit and loss. This requires a reassessment of the estimates used at the end of each reporting period.

For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Company uses a Black-Scholes model.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 23.

VIII. Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please refer Note 24.

IX. Business model assessment

Classification and measurement of financial assets depends on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held.

X. Effective Interest Rate (EIR) method

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the of financial instrument.

This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments, as well expected changes to benchmark rate and other fee income/expense that are integral parts of the instrument.

XI. Impairment of financial assets

The Company recognizes loss allowances for Expected Credit Losses (ECL) on its financial assets measured at amortized cost and Fair Value through Other Comprehensive Income (FVOCI) except investment in equity instruments. At each reporting date, the Company assesses whether the above financial assets are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

XII. Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the performance of the assets of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

XIII. Lease classification: Company as a lessor

The Company has given office premises under lease. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Impact of COVID -19

COVID-19 has had an extraordinary impact on macroeconomic conditions in India and around the world post declaration of it as a pandemic by World Health Organisation in March 2020. Nation-wide lockdown in April-May 2020 followed by localised lockdown were imposed to restrict the spread in areas with significant number of cases. The restrictions were gradually lifted leading to improvement in economic activity. This was followed by two waves of COVID-19 with outbreak of new variants which led to the re-imposition of regional lockdowns which were subsequently lifted supported by administration of the COVID vaccines to a large population in the country.

India is emerging from the Covid-19 pandemic. The extent to which any new wave of COVID-19 pandemic will impact the Company's results will depend on ongoing as well as future developments, including, among other things, any new information concerning the severity of the COVID-19 pandemic, and any action to contain its spread or mitigate its impact whether government-mandated or elected by us.

i) Impairment of Financial Asset

Financial assets measured at amortized cost includes cash and cash equivalents amounting to ₹ 186.10 lakhs (31st March, 2021: ₹ 191.57 lakhs), trade receivables amounting to ₹ 2417.30 lakhs (31st March, 2021: ₹ 1673.39 lakhs), other receivables amounting to ₹ 871.36 lakhs (31st March, 2021: ₹ 5.88 lakhs) and debentures amounting to ₹ 2544.27 lakhs (31st March, 2021: ₹ 7639.12lakhs) as at 31st March, 2021. The Company as on 31st March, 2021 holds provision for expected credit losses based on the information available. Basis this assessment, the allowance for expected credit loss on financial assets of ₹ 389.13 lakhs (31st March, 2021: ₹ 276.41 lakhs) as at 31st March, 2022 is considered adequate and the Company will continue to closely monitor any material changes to these assumptions, estimates and future economic condition

3. AMENDMENTS TO EXISTING IND AS:

(A) Amendments to existing Standards

Recent pronouncements Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23rd March, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 1st April, 2022, as below:

Ind AS 103 – Business Combination

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Property, Plant and Equipment

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Ind AS 37 – Provisions, Contingent Liabilities & Contingent Assets

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Financial Instruments

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

A. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment (PPE) are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

a. its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

b. any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

   Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in the statement of profit and loss.

   If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

   Any gain or loss on disposal of an item of property, plant and equipment is recognised in the statement of profit and loss.

ii. Subsequent expenditure

Subsequent expenditure on PPE after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

iii. Depreciation

Deprecation is provided on a pro-rata basis on a Straight Line Method over the estimated useful life of the assets at rates which are equal to or higher than the rates prescribed under Schedule II of the Companies Act, 2013 in order to reflect the actual usage of the assets. Estimated useful lives of assets based on technical evaluation by management are as follows:

Computers	3 years
Office Equipment	5 years
Furniture and Fixtures	6 years
Vehicles	4 years
Leasehold Improvements	Over the period of lease subject to a maximum of 6 years

Assets costing less than INR 5,000 are fully depreciated in the year of purchase.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

B. Intangible assets

i. Recognition and measurement

Intangible assets are stated at cost of acquisition less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making 'the asset ready for its intended use and net of any trade discounts and rebates.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

ii. Subsequent expenditure

Subsequent expenditure on an intangible asset after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

iii. Amortisation

The intangible assets are amortized over the estimated useful lives as given below:

Software (including development) expenditure	3 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

C. Investment property

i. Recognition and measurement

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost.

ii. Subsequent expenditure

Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Any gain or loss on disposal of an investment property is recognised in profit or loss. The fair values of investment property is disclosed in the notes. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

iii. Depreciation

Deprecation is provided on a pro-rata basis on a Straight Line Method over the estimated useful life of the assets at rates which are equal to or higher than the rates prescribed under Schedule II of the Companies Act, 2013 in order to reflect the actual usage of the assets. Estimated useful lives of assets based on technical evaluation by management are as follows:

Buildings	58 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

D. Revenue recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services

Fee Income

Issue management and placement fees, underwriting commission and financial advisory fees are accounted on completion of performance obligation i.e. milestones specified in the contract.

Income from venture fund

Revenue on account of distribution from Venture Capital Funds / Alternate Investment Funds is recognised on the receipt of the distribution letter or when right to receive is established.

Interest Income

Interest income on financial assets is recognized on an accrual basis using effective interest method. Interest revenue is continued to be recognized at the original effective interest rate applied on the gross carrying amount of assets falling under impairment stages 1 and 2 as against on amortised cost for the assets falling under impairment stage 3.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Dividend Income

Dividend income is recognised in the statement of profit and loss when the right to receive the dividend is established.

E. Leases

The Company assess whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company considers incremental borrowing rate as the discount rate.

The lease liability is subsequently measured at amortised cost using the effective interest method.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

Operating Leases as a Lessor

Lease income from operating leases where the company is a lessor is recognised in income on either a straight-line basis or another systematic basis. The respective leased assets are included in the balance sheet based on their nature.

F. Income Tax

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income (OCI).

Current tax

Current tax [including Minimum Alternate Tax ('MAT')] is measured at the amount expected to be paid in respect of taxable income for the year in accordance with the Income Tax Act, 1961.

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset only if the Company has a legally enforceable right to set off the recognised amounts, and it intends to realize the asset and settle the liability on a net basis or simultaneously.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are reviewed at each reporting date and based on management's judgement, are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset only if:

a. the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and

b. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

G. Employee benefits

Defined contribution plan

- **Provident fund**

  Provident fund is a defined contribution scheme and the contributions as required by the statute to Government Provident Fund are charged to statement of profit and loss when due. The Company has no further obligations.

- **Superannuation Fund**

  The Company contributes a sum equivalent to 15% of eligible employee's salary subject to a maximum of ₹1 Lakh per annum per employee to a Superannuation Fund administered by trustees and managed by Kotak Life Insurance Company. The Company recognizes such contributions as an expense in the year they are incurred.

Defined benefit plan

- **Gratuity**

  The Company accounts for the liability for future gratuity benefits based on an actuarial valuation. The Company contributes to a Gratuity Fund administered by trustees and managed by Kotak Mahindra Life Insurance Company Limited, fellow subsidiary. The liability or asset recognised in the standalone balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated at end of each period by actuaries using the projected unit credit method.

  The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

  The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the standalone statement of profit and loss.

  Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the standalone statement of changes in equity and in the standalone balance sheet.

  Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in standalone statement of profit and loss as past service cost.

- **Compensated absences**

  The Company accrues the liability for compensated absences, based on the actuarial valuation as at the balance sheet date, conducted by an independent actuary which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation. The net present value of the Company's obligation is determined based on the projected accrued benefit method (same as projected unit credit method in respect of past service) as at the Balance Sheet date

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Other Employee Benefits

As per the company policy, employees of the company are eligible for an award after completion of a specified number of years of service with the company. The obligation is measured at the Balance Sheet date on the basis of an actuarial valuation using the projected unit credit method conducted by actuary, done for the group as a whole and charge allocated to the company.

The amount of short term employee benefits expected to be paid in exchange for the services rendered by employee is recognized during the period when the employee renders the service. These benefits include performance incentives.

H. Foreign Currency transactions

Transactions in foreign currencies are translated into functional currency at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

I. Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

J. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

K. Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount in the Statement of Profit and Loss.

The recoverable amount is the greater of the fair value less costs of disposal and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the statement of profit and loss , to the extent the amount was previously charged to the statement of profit and loss. In case of revalued assets, such reversal is not recognized.

L. Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but disclosed in the notes.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

M. Share based payments

Employees Stock Options Plans ("ESOPs") - Equity settled

The ultimate holding company of the company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Company's operations. Employees (including directors) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity settled transactions").

The cost of equity-settled transactions with employees and directors for grants is measured by reference to the fair value at the date at which they are granted. The cost of equity-settled transactions is recognised in statement profit and loss, together with a corresponding increase in reserves, representing contribution received from the ultimate holding company, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Stock Appreciation Rights ("SARs") - Cash Settled

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period the employees unconditionally become entitled to payment. The liability is measured at the end of each reporting date up to and including settlement date, with changes in the fair value recognised in the statement of profit and loss in 'Provision for Stock Appreciation Rights' under the head Employee Benefit Expense.

N. Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. For detailed disclosure, refer Note 28.

O. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Recognition and Initial measurement

All financial assets are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction fees or costs that are directly attributable and incremental to the origination/acquisition of the financial asset unless otherwise specifically mentioned in the accounting policies.

All regular way purchase or sale of financial assets are recognised and derecognised on a trade date basis. Purchase or sale of unquoted instrument is recognised on the closing date or as and when the transaction is completed as per terms mentioned in relevant transaction agreement / document.

Regular way purchase or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification

The Company classifies its financial assets as subsequently measured at either amortized cost or fair value based on the business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The Company determines business model in which an asset is held consistent with the way in which business is managed and information is provided to the management. The information considered includes:

- the objectives for the portfolio, in particular, management's strategy of focusing on earning contractual interest revenue, maintaining a particular interest rate profile,
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

- the risks that affect the performance of the business model, the financial assets held within that business model and how those risks are managed.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of assessing contractual cash flows, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

Subsequent measurement

The Company classifies its financial assets in the following measurement categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost using the Effective interest rate EIR method only if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR and reported as part of interest income in the statement of profit and loss. The losses if any, arising from impairment are recognised in the statement of profit and loss.

Financial asset at fair value through Other Comprehensive Income (FVOCI)

Financial asset with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI. The impairment losses, if any, are recognized through profit and loss account. The loss allowance is recognized in other comprehensive income and does not reduce the carrying value of the financial asset.

Equity instruments at FVOCI

The Company subsequently measures all equity investments at fair value through profit or loss, unless the Company has elected to classify irrevocably some of its equity investments as equity instruments at FVOCI, when such instruments meet the definition of definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis. Gains and losses on these equity instruments are never recycled to the profit and loss. Dividends are recognised in the statement of profit and loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

Financial asset at fair value through profit and loss (FVTPL)

Any financial asset, which does not meet the criteria for classification as at amortized cost or as FVOCI, is classified to be measured at FVTPL.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Financial liabilities and equity instruments:

Classification as debt or equity -

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments -

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Company are recognised at the proceeds received. Transaction costs of an equity transaction are recognised as a deduction from equity

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Financial liabilities

The company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Liabilities which are classified at fair value through profit or loss, including derivatives that are liabilities, shall be subsequently measured at fair value. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in Statement of profit and loss. Any gain or loss on derecognition is also recognised in Statement of profit and loss.

P. Impairment of Financial Assets

Methodology for computation of Expected Credit Losses (ECL)

The financial instruments covered within the scope of ECL include financial assets measured at amortised cost and FVOCI, such as trade receivables, employee loans, investment in debt instruments, balances with banks and other financial assets. ECL has not been determined on financial assets measured at FVTPL.

The loss allowance has been measured using lifetime ECL except for financial assets on which there has been no significant increase in credit risk since initial recognition. In such cases, loss allowance has been measured at 12 month ECL.

At each reporting date, the Company assesses whether financial assets carried at amortised cost and FVOCI are credit-impaired. A financial asset is credit- impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred since initial recognition. Evidence that a financial asset is credit-impaired includes the observable data such as Days Past Due ('DPD') or default event.

ECL are a probability weighted estimate of credit losses, measured as follows:

- Financial assets that are not credit impaired at the reporting date:

  ECL has been estimated by determining the probability of default ('PD'), Exposure At Default ('EAD') and loss given default ('LGD'). PD has been computed using observed history of default and converted into forward looking PD's using suitable macro-economic variable data.

- Financial assets that are credit impaired at the reporting date:

The Company applies a simplified approach for trade receivables. It recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on Lifetime ECLs at each reporting date.

The Company has historic credit loss data to compute ECL. The Company uses days past due information and forecasts the information to assess deterioration in credit quality of a financial asset.

The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Method used to compute lifetime ECL/12 month ECL:

The Company calculates ECLs based on a probability-weighted scenarios to measure the expected cash shortfalls, discounted at the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the present value of cash flows that the entity expects to receive. The Company applies statistical techniques to estimate 12 month ECL and lifetime ECL.

Manner in which forward looking assumptions has been incorporated in ECL estimates:

The Company considers its historical loss experience and adjusts it for current observable data. In addition, the Company uses reasonable forecasts of future economic conditions including expert judgement to estimate the amount of expected credit losses. The methodology and assumptions including any forecasts of future economic conditions are periodically reviewed and changes, if any, are accounted for prospectively. The Company's ECL calculations are outputs of number of underlying assumptions regarding the choice of variable inputs and their interdependencies such as macroeconomic scenarios and collateral values.

Q. Write-offs

Financial assets are written off either partially or in their entirety when there is no realistic prospect of recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in the statement of profit and loss. However, financial assets that are written off may be subject to enforcement activities to comply with the Company's procedures for recovery of amounts due.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

R. Derecognition of financial assets and financial liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

  On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in the statement of profit and loss.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

S. Modifications of financial assets and financial liabilities

Financial assets

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified financial asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified financial asset are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit and loss account. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income or other gain or loss as appropriate.

Financial liabilities

The Company derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

T. Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

U. Measurement of fair values

The Company's accounting policies and disclosures require fair value measurement of financial instruments such as investment in unquoted equity instruments, mutual funds, venture capital funds etc.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Management uses its judgement in selecting an appropriate valuation technique for financial instruments not quoted in an active market. Valuation techniques commonly used by market participants are applied.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs that are significant to the measurements, used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

V. Cash and cash equivalents

Cash and cash equivalents comprise of cash on hand and demand deposits with banks. It also comprises of short-term deposits with an original maturity of three months or less, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value**.**

W. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before exceptional items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(A)	Rent expense	812.62	917.47
	Total	**812.62**	**917.47**

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

NOTE 22 EMPLOYEE BENEFITS

A. The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The Company makes contributions towards provident fund, superannuation fund and other retirement benefits to a defined contribution retirement benefit plan for qualifying employees. Under the plan, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit plan to fund the benefits. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes."

The Company recognised INR 249.50 lakhs (previous year INR 217.83 lakhs) for provident and other fund contributions in the Statement of Profit and Loss.

The Company recognised INR 2.00 lakhs (previous year INR 2.00 lakhs) for superannuation contribution and other retirement benefit contributions in the Statement of Profit and Loss.

(ii) Defined Benefit Plan:

Gratuity

In accordance with Payment of Gratuity Act, the Company provides for gratuity, a defined benefit retirement plan covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and the years of employment with the Company subject to maximum of ₹ 20 lakhs. (Previous Year ₹ 20 lakhs).

The Company accounts for the liability for future gratuity benefits based on an actuarial valuation. The Company contributes to a Gratuity Fund administered by trustees and managed by Kotak Mahindra Life Insurance Company Limited, fellow subsidiary. The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at Balance Sheet date.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

(₹ in lakhs)

Particulars	31st March, 2022	31st March, 2021

Net defined benefit asset	-	-	-	-	-	-
Net defined benefit liability	**463.56**	**447.43**	**458.17**	**439.92**	**5.39**	**7.51**

C. Defined benefit obligations

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

Particulars	31st March, 2022	31st March, 2021
Discount rate	6.70%	6.20%
Salary escalation rate	**7.00%***	**7.00%***

** 12% until year 1 inclusive, then (previous year - 0% until year 1 inclusive, then)*

Assumptions regarding future mortality have been based on published statistics and mortality tables.

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Impact of change in assumptions	31st March, 2022		31st March, 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (0.5% movement)	(12.93)	13.64	(13.24)	14.00
Future salary growth (0.5% movement)	**4.57**	**(4.78)**	**5.19**	**(5.11)**

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

iii. Risk exposure

A decrease in Government Securities yield will increase plan liabilities. Since the benefits are lump sum in nature the plan is not subject to any longevity risks.

D. Disaggregation of Plan Asset

Particulars	31st March, 2022			31st March, 2021		
	Quoted Value	Non-Quoted Value	Total	Quoted Value	Non-Quoted Value	Total
Insurer managed funds	**-**	**100%**	**100%**	**-**	**100%**	**100%**

Particulars	31st March, 2022		31st March, 2021	
	%	Amount	%	Amount
Equity	57%	260.38	56%	247.72
Government Securities	22%	102.86	31%	136.07
Bonds, debentures and other fixed income instruments	9%	41.46	9%	39.28
Money market instruments	11%	50.31	3%	13.51
Others	1%	3.16	1%	3.34
Total	**100%**	**458.17**	**100%**	**439.92**

E. Expected Future Cash Flows

Expected contribution:

There is no compulsion on the part of the Group to fully pre fund the liability of the Plan. The Group's philosophy is to fund the benefits based on its own liquidity and tax position as well as level of under funding of the plan.

The expected contribution payable to the plan next year is therefore 50 Lakhs.

Expected future benefit payments:

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Maturity profile	₹ in lakhs
Expected benefits for Year 1	84.90
Expected benefits for Year 2	69.98
Expected benefits for Year 3	45.55
Expected benefits for Year 4	69.76
Expected benefits for Year 5	52.91
Expected benefits for Year 6	35.45
Expected benefits for Year 7	27.94
Expected benefits for Year 8	25.97
Expected benefits for Year 9	43.91
Expected benefits for Year 10 and above	277.81

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

F. Compensated absences

The actuarially determined liability for compensated absences of accumulated leave of the employees of the Company is given below:

Particulars	For the year ended 31st March, 2022	For the year ended 31st March, 2021
Total liability	211.76	183.50
Assumptions :		
Discount rate	6.70%	6.20%
Salary escalation rate	7.00%*	7.00%*

** 12% until year 1 inclusive, then (previous year - 0% until year 1 inclusive, then)*

NOTE 23 SHARE-BASED PAYMENT ARRANGEMENTS:

A. Description of share-based payment arrangements

i. Share option plans (equity-settled)

At the General Meetings of the holding company, Kotak Mahindra Bank Limited, ("the Bank"), the shareholders of the Bank had unanimously passed Special Resolutions on 5th July, 2007, 21st August, 2007 and 29th June, 2015, to grant options to the eligible employees of the Bank and its subsidiaries and associate companies. Pursuant to these resolutions, the following Employees Stock Option Schemes had been formulated and adopted:

(a) Kotak Mahindra Equity Option Scheme 2007; and

(b) Kotak Mahindra Equity Option Scheme 2015

Further, pursuant to the Scheme of Amalgamation of ING Vysya Bank (IVBL) with the Bank, the Bank has renamed and adopted the ESOP Schemes of the erstwhile IVBL, as given below:

(a) Kotak Mahindra Bank Ltd. (IVBL) Employees Stock Option Scheme 2007

(b) Kotak Mahindra Bank Ltd. (IVBL) Employee Stock Option Scheme 2010; and

(c) Kotak Mahindra Bank Ltd. (IVBL) Employees Stock Option Scheme 2013

Consequent to the above, the Bank has granted stock options to employees of the Company.

During the year ended 31st March,2022 the following schemes were in operation

As at 31st March, 2022

Scheme Reference	Grant Date	Method of Settlement Accounting	No of Share Options outstanding	Vesting conditions / Dates	Contractual life of the options (Yrs)
ESOP 2015 - 14 - D	18-May-18	Equity Settled	74,026	31-Dec-21	3.62

B. Measurement of fair values

i. Equity-settled share-based payment arrangements”

The fair value of the employee share options has been measured using the Black-Scholes formula. Service and non-market performance conditions attached to the arrangements were not taken into account in measuring fair value.

As at 31st March, 2022

Scheme	Grant Date	Vesting period	Exercise period	Expected life (Years)	Exercise Price (INR)	Market price (INR)	Risk free rate	Annual Dividend yield	Volatility	Fair value per share options (INR)
ESOP 2015 - 30	30-May-21	1.08 - 4.09	0.84	1.34 - 4.34	1,801.00	1,800.75	4.05% - 5.53%	0.05%	29.80% - 42.76%	390.94 - 609.04
ESOP 2015 - 31	30-May-21	1.59	0.84	1.84	1,801.00	1,800.75	4.37%	0.05%	38.62%	429.75

As at 31st March, 2021

Scheme	Grant Date	Vesting period	Exercise period	Expected life (Years)	Exercise Price (INR)	Market price (INR)	Risk free rate	Annual Dividend yield	Volatility	Fair value per share options (INR)
ESOP 2015-25	07-Aug-20	1.07 - 3.40	0.50	1.31 - 3.65	1,341.00	1,340.10	3.61% - 5.06%	0.06%	29.29% - 39.75%	267.12 - 395.03

The following table lists the average inputs to the models used for the plans for the year ended 31st March, 2022.

Particulars	Description of the inputs used
Expected volatility (weighted-average)	Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of Kotak Mahindra Bank Limited's publicly traded equity shares.
Expected dividends	Dividend yield of the options is based on recent dividend activity.
Risk-free interest rate (based on government bonds)	Risk-free interest rates are based on the government securities yield in effect at the time of the grant.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

ii. Stock Appreciation Rights (cash-settled)

During the year, the management had approved SARs to be granted to eligible employees as and when deemed fit. The SARs are to be settled in cash and will vest in the manner as provided in the scheme / grant letters to employees. The Company under its various plans / series has granted 27,900 SARs during FY 2021- 22. The contractual life (which is equivalent to the vesting period) of the SARs outstanding ranges from 1.08 years to 4.12 years

As at 31st March, 2022

The following table lists the average inputs to the models used for the plans for the year ended 31st March, 2022.

Particulars	Description of the inputs used
Expected volatility (weighted-average)	Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of Kotak Mahindra Bank Limited's publicly traded equity shares.
Expected dividends	Dividend yield of the options is based on recent dividend activity.
Risk-free interest rate (based on government bonds)	Risk-free interest rates are based on the government securities yield in effect at the time of the grant.

Reconciliation of Stock Appreciation Rights (cash-settled)

Financial liabilities				
Payables				
Trade Payables	588.72	588.72	532.57	532.57
Other Financial Liability	3,204.02	3,204.02	903.05	903.05
Total financial liabilities	**3,792.74**	**3,792.74**	**1,435.62**	**1,435.62**

The carrying amounts of Cash and cash equivalents, Bank balances, trade and other receivables, loan to employees, trade payables and other financial liabilities are considered to be approximate to their fair values due to their short-term nature.

C. Measurement of fair values

The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The categories used are as follows:

Level 1 : Level 1 hierarchy includes financial instruments measured using unadjusted quoted prices in active markets that the Bank has the ability to access for the identical assets or liabilities. A financial instrument is classified as a Level 1 measurement if it is listed on an exchange. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges in valued using the closing price as at the reporting period. The mutual funds are valued at the closing NAV.

Level 2 : The fair value of financial instruments that are not traded in active markets is determined using valuation techniques which maximize the use of observable market data either directly or indirectly, such as quoted prices for similar assets and liabilities in active markets, for substantially the full term of the financial instrument but do not qualify as Level 1 inputs. If all significant inputs required to fair value an instrument are observable the instrument is included in level 2.

Level 3 : If one or more of the significant inputs is not based in observable market data, the instruments is included in level 3. That is, Level 3 inputs incorporate market participants' assumptions about risk and the risk premium required by market participants in order to bear that risk. The Bank develops Level 3 inputs based on the best information available in the circumstances.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Financial instruments valued at carrying value

The respective carrying values of certain on-balance sheet financial instruments approximated their fair value. These financial instruments include cash in hand and bank balances, trade receivables, trade payables, loans repayable on demand and certain other assets and liabilities that are considered financial instruments. Carrying values were assumed to approximate fair values for these financial instruments as they are short-term in nature and their recorded amounts approximate fair values or are receivable or payable on demand.

Valuation techniques used to determine fair value

Investments in Mutual Funds

The fair values of investments in mutual funds is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

Investments in Debentures

The fair values have been calculated using the discounted cash flow approach.The discount rates were based on yield curves appropriate for the remaining maturities of the instruments as published by FIBIL.

Investment in Venture Capital Funds

The fair values of investments in venture capital funds is based on the net asset value ('NAV') as stated by the issuers of these venture capital fund units

Investment in Equity instruments (Classified as level 3)

Fair value has been determined by using the following approaches:

Comparable Companies Multiple Method: Under this method the value of shares/business of a company is determined based on market multiples of publicly traded comparable companies.

Comparable Transaction multiple method: Under this method the value of shares/business of a company is determined based on market multiples of publicly disclosed transactions in the similar segment as that of the company being valued

Discounted Cash Flow (DCF) : Under a DCF approach, forecast cash flows are discounted back to the present date, generating a net present value for the cash flow stream of the business. A terminal value at the end of the explicit forecast period is then determined and that value is also discounted back to the valuation date to give an overall value for the business.

Cost Approach : Break Up Value method has been adopted for valuation of equity shares.

Investment in Equity instruments (Classified as level 2)

Fair value has been determined by using the following approaches:

Comparable Companies Multiple Method: Under this method the value of shares/business of a company is determined based on market multiples of publicly traded comparable companies.

Comparable Transaction multiple method: Under this method the value of shares/business of a company is determined based on market multiples of publicly disclosed transactions in the similar segment as that of the company being valued.

Cost Approach : Break Up Value method has been adopted for valuation of equity shares.

Fair value of financial instruments carried at amortised cost

Investment securities held at amortised cost

Securities classified as held at amortised cost were, for the purposes of this disclosure, fair valued based on quoted market prices. If quoted market prices were not available, fair values were estimated using market yield on balance period to maturity on similar instruments and similar credit risk. The Bank records credit risk valuation adjustments in order to reflect the credit quality of the counterparties. Observable inputs include assumptions such as interest rates. Unobservable inputs include assumptions such as expected future default rates, prepayment rates and market liquidity discounts.

Deposits

The fair value of deposits without defined maturities are the amounts payable on demand. For deposits with defined maturities, the fair values were estimated using discounted cash flow models that apply market interest rates corresponding to similar deposits and timing of maturities.

Transfers between Level 1 and Level 2

There were no transfers between level 1 and 2 during the period. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels at the end of the reporting period.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Level 3 fair values

The following table shows a reconciliation from the beginning balances to the ending balances for fair value measurements in Level 3 of the fair value hierarchy.

₹ in lakhs

Particulars	As at 1st April, 2021	Total gains/ (losses) recorded in profit or loss	Total gains/ (losses) recorded in Other Comprehensive Income	Purchases	Sales/ Settlements	Transfers in/(out)	As at 31st March, 2022
Investments in Equity Instruments	**4.99**	**-**	**(4.99)**	**-**	**-**	**-**	**-**

Particulars	As at 1st April, 2020	Total gains/ (losses) recorded in profit or loss	Total gains/ (losses) recorded in Other Comprehensive Income	Purchases	Sales/ Settlements	Transfers in/(out)	As at 31st March, 2021
Investments in Equity Instruments	**4.99**	**-**	**-**	**-**	**-**	**-**	**4.99**

Transfer out of Level 3

The fair value of one unquoted equity investment (classified as FVOCI) was categorised as Level 3 at 31st March, 2018 since the fair value of shares was computed using projected cash flow. During the year 2018-19, the Company has valued the investment in such unquoted equity investment considering the market multiple method using market available information of comparable companies and comparable transactions. Accordingly, the fair value measurement was transferred from Level 3 to Level 2 of the fair value hierarchy at 31st March, 2019.

The table below lists key unobservable inputs to Level 3 financial instruments, and provides the range of those inputs as at 31st March, 2022:

Financial Instruments	Significant unobservable inputs	Fair value measurement sensitivity to unobservable inputs
Investments in equity securities	Discount rate, Expected Cash Flows, price	If expected cash flows were higher / lower, discount rate were lower / higher and the price were higher / lower, the fair value would increase / decrease.

Sensitivity analysis of Level 3 financial instruments measured at fair value on a recurring basis

Although the Company believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value. For fair value measurements in Level 3, changing one or more of the assumptions used to reasonably possible alternative assumptions would have the following effects.

Particulars	As at 31st March, 2022		As at 31st March, 2021	
	Increase	Decrease	Increase	Decrease
Investment in unquoted equity shares:				
If expected cash flows/price were higher / (lower) by 500 bps and the discount rate lower / (higher) by 100 bps, the fair value would increase / (decrease)	-	-	0.25	(0.25)

D. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Risk Management Policy, inter alia, includes identification therein of elements of risk, including those may threaten the existence of the Company. Risk management process has been established across the Company and is designed to identify, assess and frame a response to threats that affect the achievement of its objectives. Further, it is embedded across all the major functions and revolves around the goals and objectives of the organization.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The management committee oversees how the management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

NOTE 24 FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT (CONTD.)

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances. The Gross carrying amounts of following financial assets represent the maximum credit risk exposure:

₹ in lakhs

Particulars	As at 31st March, 2022	As at 31st March, 2021

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

b. Amounts arising from ECL

i. Inputs, assumptions and techniques used for estimating impairment:

Inputs considered in the ECL model:

The Company applies various approaches to determine if there has been a significant increase in credit risk. In determining whether credit risk has increased significantly since initial recognition, the Company uses days past due information and forecast information to assess deterioration in credit quality of a financial asset.

The company categorises financial assets into stages based on the days past due status.

- Stage 1: 0-30 days past due
- Stage 2: 31- 90 days past due
- Stage 3: More than 90 days past due

The Company has used simplified approach to provide expected credit loss on trade receivables as prescribed by Ind AS 109 which permits use of lifetime expected credit loss provision for all trade receivables. The Company has historic credit loss data to compute ECL.

Assumption considered in the ECL model:

- "Loss given default" (LGD) is an estimate of loss from a transaction given that a default occurs.
- "Probability of default" (PD) is dfined as the probability of whether the borrowers will default on their obligations in the future. For assets which are in Stage 1, a 12 month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD.
- "Exposure at default" (EAD) represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

Forward looking information:

The Company incorporates forward looking information into both assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on the consideration of a variety of external actual and forecast information, the Company forms a 'base case' view of the future direction of relevant economic variables such as total debt to GDP, Gross fixed investment etc. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. The base case represents a most likely outcome while the other scenarios represent more optimistic and more pessimistic outcomes.

Assessment of significant increase in credit risk:

The credit risk on a financial assets of the Company are assumed to have increased significantly since initial recognition when contractual payments are more than 30 days past due. Accordingly the financial assets shall be classified as Stage 2, if on the reporting date, it has been 30 days past due.

Definition of default:

The Company considers a financial instrument defaulted when the counterparty fails to make the contractual payments within 90 days of the due date. This definition of default is determined by considering the business environment in which the company operates and other macro-economic factors. Accordingly the financial assets shall be classified as Stage 3, if on the reporting date, it has been 90 days past due.

Policy for write-off:

Receivables which are not recoverable in the opinion of management are written off.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

ii. Impairment loss allowance

The following table shows reconciliations for trade receivables from the opening to the closing balance of the loss allowances and write offs:

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

iii. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Maturity Profile of Financial Liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

₹ in lakhs

Sr. No.	Particulars	Carrying amount	Total	On demand	Less than 6 months	6-12 months	1-2 years	2-5 years	More than 5 years
	As at 31st March, 2022

	Carrying Amount	**3,792.74**	**3,792.74**	**-**	**3,792.74**	**-**	**-**	**-**	**-**

₹ in lakhs

Sr. No.	Particulars	Carrying amount	Total	On demand	Less than 6 months	6-12 months	1-2 years	2-5 years	More than 5 years
	As at 31st March, 2021								
	Non-derivative financial liabilities								
1	Trade and other Payables	532.57	532.57	-	532.57	-	-	-	-
2	Other Financial Liabilities	903.05	903.05	-	903.05	-	-	-	-
	Carrying Amount	**1,435.62**	**1,435.62**	**-**	**1,435.62**	**-**	**-**	**-**	**-**

iv. Market risk

Market risk is the risk that changes in market prices – such as equity prices, interest rates and foreign exchange rates – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The Company is exposed to market risk primarily related to the market value of the Company's investments, interest rate risk and foreign exchange rate risk. Thus, the Company's exposure to market risk is a function of market value of investment portfolio and some revenue generating activities in foreign currency. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk on account of its trade receivables in foreign currency. The functional currency of the Company is Indian Rupee

Exposure to currency risk

The currency profile of financial assets and financial liabilities as at 31st March, 2022 and 31st March, 2021 are as below:

₹ in lakhs

Particulars	31st March, 2022	31st March, 2021
Financial assets		
Trade and other receivables	134.15	-
	134.15	**-**

Particulars	Year end spot rate	
	31st March, 2022	31st March, 2021
USD	1,77,000.00	-
JPY	-	-

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against the foreign currencies at 31st March would have affected the measurement of financial instruments denominated in foreign currencies and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Effect in INR	Profit or loss	
	Strengthening	Weakening
31-Mar-22		
USD - 1% Movement	(1.34)	1.34
	(1.34)	**1.34**

Effect in INR	Profit or loss	
	Strengthening	Weakening
31-Mar-21		
USD - 1% Movement	-	-
	-	**-**

Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Company's interest rate risk arises from its investment in debentures and fixed deposits. The interest rate profile of the Company's interest bearing financial instruments as reported to the management of the Company is as follows.

₹ in lakhs

Particulars	As at 31st March, 2022	As at 31st March, 2021
Fixed-rate instruments		
Financial assets	14,777.78	11,181.56
Total Net	**14,777.78**	**11,181.56**

Interest rate sensitivity analysis for fixed-rate instruments

The company's interest bearing investments are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

NOTE 25 CAPITAL DISCLOSURE

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves . The primary objective of the Company's Capital Management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment. The Company monitors its capital on a regular basis. The Company is sufficiently capitalised and no changes were made in objectives, policies or processes for managing capital as at 31st March, 2021 and 31st March, 2022.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

(e) Tax losses carried forward

The company does not have accumulated tax losses carried forward. Also, company has opted for lower tax rate u/s 115BAA. Thus carried forward losses are not eligible for set off against future profits

Notes

Receivables	**2,417.30**	**1,673.39**

d) Transaction price allocated to the remaining performance obligations

The Company has elected to apply the practical expedient under Ind AS 115 and does not disclose information about remaining performance obligations that have original expected duration of one year or less.

Notes

Notes to the Standalone Financial Statements for the year ended 31st March, 2022

NOTE 28 SEGMENT INFORMATION

An operating segment is a component of the Company that engages in business activities from which it may earn revenue and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available.

All operating segments' results, inter-company revenues and expenses, are regularly reviewed by the Board of Directors, which have been identified as the Chief Operating Decision Maker ('CODM') of the Company, for which discrete financial information is available. The Board of Directors, which have been identified as the CODM, regularly review the performance reports and make decisions about allocation of resources.

The Company has two reportable segments, as described below:

Advisory and Transactional Services

Trading and Principal Investments
